

Cheau Ling, Wong

Frontend Engineer

(+65) 88305395 | jjowcl01@gmail.com

Frontend Engineer with experience building data-heavy enterprise products across sustainability, media, gaming, and event ecosystems. Strong in turning requirements and Figma concepts into production-ready interfaces, with a focus on workflow UX, real-time UI, data visualisation, and scalable frontend architecture. Uses AI-assisted development tools to accelerate prototyping, debugging, and documentation, with review and automated testing as guardrails.

About Me

Gender	Female
Age	34
Current Location	Singapore
Nationality	Malaysian (Singapore PR)
My Work	https://joeywcl.github.io

Experience

September 2022 -
Present

Research Engineer

Nanyang Technological University (NTU) | Singapore

Delivered production-ready features for an enterprise AI-powered Data Center Optimisation platform, collaborating closely with project managers, researchers, and cross-functional engineering teams.

Built an AI-assisted workflow canvas in Next.js and React Flow for complex data analysis, supporting node-based interactions, live data exploration, and source-aware generated outputs.

Designed large-canvas usability features including keyboard shortcuts, focus modes, and view controls to improve navigation and readability across dense workflows.

Translated product requirements and wireframes into polished UI/UX in Figma, refining user flows and interaction patterns before implementation.

Led the frontend architecture refactor to Next.js and MUI, improving performance, maintainability, and onboarding for new developers.

Implemented structured AI progress streaming and progressive UI states, improving clarity over raw token-based responses.

Expanded data preview capabilities with chart rendering and multi-sheet Excel preview support for richer in-product analysis workflows.

Implemented Cypress automated test suites for critical user flows and improved CI/CD quality gates through GitHub Actions.

Improved critical API fetch performance (~4s to ~1s) through request parallelisation and caching strategies.

April 2017 - August
2022
(5 years)

Senior Software Engineer (Frontend) @ Warner Music Group Global Technology

Warner Music (Malaysia) Sdn Bhd | Selangor, Malaysia

Supported continuous enhancement of a global enterprise application, focusing on AngularJS and Node.js across core business workflows. Contributed to native Android applications by completing pending features, improving production readiness, and supporting long-term maintenance. Led Android release deployment to the Google Play Store, including release management and publication upkeep. Took ownership of project delivery and coordinated a small team of engineers to keep milestones, quality, and handovers on track. Collaborated closely with Product, Business Analysts, and Technical Architects to clarify requirements and support delivery planning. Authored technical documentation, maintained scalable codebases, and provided Level 2/3 production support and troubleshooting.

June 2014 - Mar
2017
(2 years 9 month)

Front End Developer

Garena Malaysia Sdn Bhd | Kuala Lumpur, Malaysia

Served as the sole frontend developer based in Malaysia, collaborating with regional engineering teams to deliver web experiences across Southeast Asia. Developed and maintained landing pages, static sites, CMS frontends, and microsites for League of Legends publishing and EA Sports online/offline events. Built responsive web experiences using HTML, CSS, JavaScript/jQuery, Drupal, and Bootstrap, ensuring compatibility and maintainability. Converted UI/UX designs into functional pages, debugged issues, and improved performance across high-traffic promotional sites. Managed Drupal content updates and supported publishing workflows for gaming platforms and campaigns. Supported on-ground eSports events in technical and operational roles, bridging digital delivery and live execution.

Sep 2013 - Jan 2014
(5 months)

Intern

Leo Burnett Malaysia | Kuala Lumpur, Malaysia

Assisted in maintaining and updating content for the newly launch client website - <http://malaysia.my/>. Involve in liaising with clients to prepare contents for articles update. Wrote biweekly short articles for publication in the malaysia.my website. Prepared digital marketing materials and flash images.

Education

Oct 2014

Universiti Kebangsaan Malaysia (UKM)

Bachelor's Degree in Computer Science/Information Technology | Malaysia

Major Multimedia Studies
CGPA 3.61 / 4.0

Nov 2013

Ajou University (Summer School Student Exchange)

Advanced/Higher/Graduate Diploma in Science & Technology | Korea (South)

Major ICT

Grade Pass/Non-gradable

Courses took during the exchange period were Political Science, Creative Game and ICT and Korean Language

Skills

Frontend	Next.js, React, Material UI, React Flow, Redux Toolkit, RTK Query, TypeScript, JavaScript, HTML, CSS, ApexCharts, AngularJS
Backend/Platform	Python (FastAPI/Pydantic), Node.js, WebSockets, Server-Sent Events (SSE), Keycloak, Postgres, InfluxDB, Docker
Testing / DevEx	Cypress, GitHub Actions, Postman, automated testing
Design / Product	Figma, design systems, accessible UI, workflow UX
Workflow / Tools	Cursor, Claude, OpenAI, OpenCode, WebStorm, PyCharm, Jira, GitHub, Lens

Optional Side Project

Figma Make Bot - Personal Experiment

Built an AI-assisted design automation tool that converts ideas, documents, or URLs into Figma Make prompts, automates submission with Playwright, and evaluates output through screenshot-based review passes to improve fidelity and usability.

Languages

Proficiency level: 0 - Poor, 10 - Excellent

Language	Spoken	Written
English (Native)	10	9
Bahasa Malaysia	10	9
Chinese	7	-
Cantonese	7	-

Other Information:

Website Development (Freelance)

Rabu Padu PUBG Mobile 2022 Microsite (Tencent Games Malayisa)

PUBG Vivo Turbo Cup Challenge 2022 Microsite (Mineski Malaysia)

Event Management (Freelance)

Assistant Head Guest Liaison for Comic Fiesta '14, '18, '19, '22 - '24

Liaison Officer for MLBB Southeast Asia Cup 2022

Stage Manager for PUBG Mobile Malaysia National Championship 2019

Stage Manager for Comic Fiesta '15, '16, '17

Panel Manager for Comic Fiesta '13
